The metro system makes getting around easy, but the confusing grid quadrants make navigating tricky. If you love politics, visit the Capitol building and the White House. If you're a history buff you could spend days at the Smithsonians alone, let alone the National Archive, or the National Geographic Museum. Spend some time soaking up American history and culture.

The metro system makes getting around easy, but the confusing grid quadrants make navigating tricky. If you love politics, visit the Capitol building and the White House. Washington DC is a historic and political city. There are so many places to visit from buildings, to monuments, to museums, to landmarks. The metro system makes getting around easy, but the confusing grid quadrants make navigating tricky. If you love politics, visit the Capitol building and the White House. If you're a history buff you could spend days at the Smithsonians alone, let alone the National Archive, or the National Geographic Museum. Spend some time soaking up American history and culture.

The metro system makes getting around easy, but the confusing grid quadrants make navigating tricky. If you love politics, visit the Capitol building and the White House. If you're a history buff you could spend days at the Smithsonians alone, let alone the National Archive, or the National Geographic Museum. Spend some time soaking up American history and culture.
